

"GET" LIST: Here's what we need!
Materials and Contract Services

While Habitat is well known for the many volunteers who build our homes alongside the partner families contributing "sweat equity", we can't do it ***all*** with volunteers!

Our ability to serve more families in need of decent affordable homes has always been strengthened by the generosity of the construction professionals and suppliers in our community.

All contracting and purchasing is under the direction of our ***Director of Construction, Mike Williams, 508-775-3559 ext. 17***, who is always glad to receive offers of donations or deep discounts, or contacts for Habitat-friendly vendors and professionals that our supporters may recommend.

We have the same high standards for quality and schedule for all vendors and contractors. Mike can provide the specs for each trade or set of materials upon request, as well as our insurance requirements for contractors.

We aggressively bid all work that is not donated, and all contracting and purchasing is done directly by Habitat. Generous donations of materials and services are an important element in the success of our program- so please contact Mike with any leads or offers.

Below is a list of the major trades and materials that we typically will need to purchase if they are not donated. Thank you for your help!

- ✓ **Anderson windows**
- ✓ **Trusses**
- ✓ **Insulation**
- ✓ **Excavation**
- ✓ **Doors**
- ✓ **Plaster**
- ✓ **Gutters**
- ✓ **Shutters**
- ✓ **Decks**
- ✓ **Sheetrock**
- ✓ **Electrical (labor and materials)**
- ✓ **Plumbing (labor and materials)**
- ✓ **Heating (labor and materials)**
- ✓ **Landscaping (labor and materials)**
